

The Uniskin journey

Kicking ageing into touch

Feel
YOUR
BEST

Our

purpose We are an aesthetic clinic offering a unique balance between **wellness**, **aesthetics** and **medicine** to transform our patients' confidence, health and happiness.

Our innovative, non-surgical anti-ageing packages **Regenerate**, **Beautify**, **Nourish** and **Restore**, take our patients on a journey of self-discovery to kick ageing into touch and feel their best – whatever their age.

Uniskin's mission is simple – we exist so you can feel your best.

and delivered

TRAINING
packages at
University level.

All of which has led us to treat over

300,000 +

patients so far.

Our

accreditations

We are proud to be accredited by the following professional bodies:

Our

heart

Everything we do is for our patients. Our experience and unique skill set means we're perfectly positioned to offer personalised care that makes a real difference to their lives, their wellbeing, and their confidence.

We only have one life, so let's make it our best life.

The

problem

The media makes me worried I'll look "done". I don't want to be younger – I just want to look the best for my age."

"I always thought 50 or 60 is old, but now I realise I am that age and I still feel the same I did in my youth".

"I am approaching my retirement but realise my life is truly happening now and I have so much more to give and do". I want my body and looks to reflect that".

"I don't look the way I used to...I still feel young but there's a mismatch with how I look."

HEAR

Our

solution

We have developed a **comprehensive personalised package** to restore and guarantee outcomes to the physiological and anatomical changes that occur at cellular level with ageing.

We have the very best in diagnostic equipment, tests and cosmeceutical products to **restore and optimise skin**, combatting signs of ageing at a cellular level and restoring a youthful and glowing look.

Our **team of specialists** optimise and tailor the approach for each unique patient. We place you at the center of our care.

Our extensive experience and training in the field of restorative medicine has afforded us to build a **proven track record**.

“We don’t accept the status quo of ageing – life’s too short!”

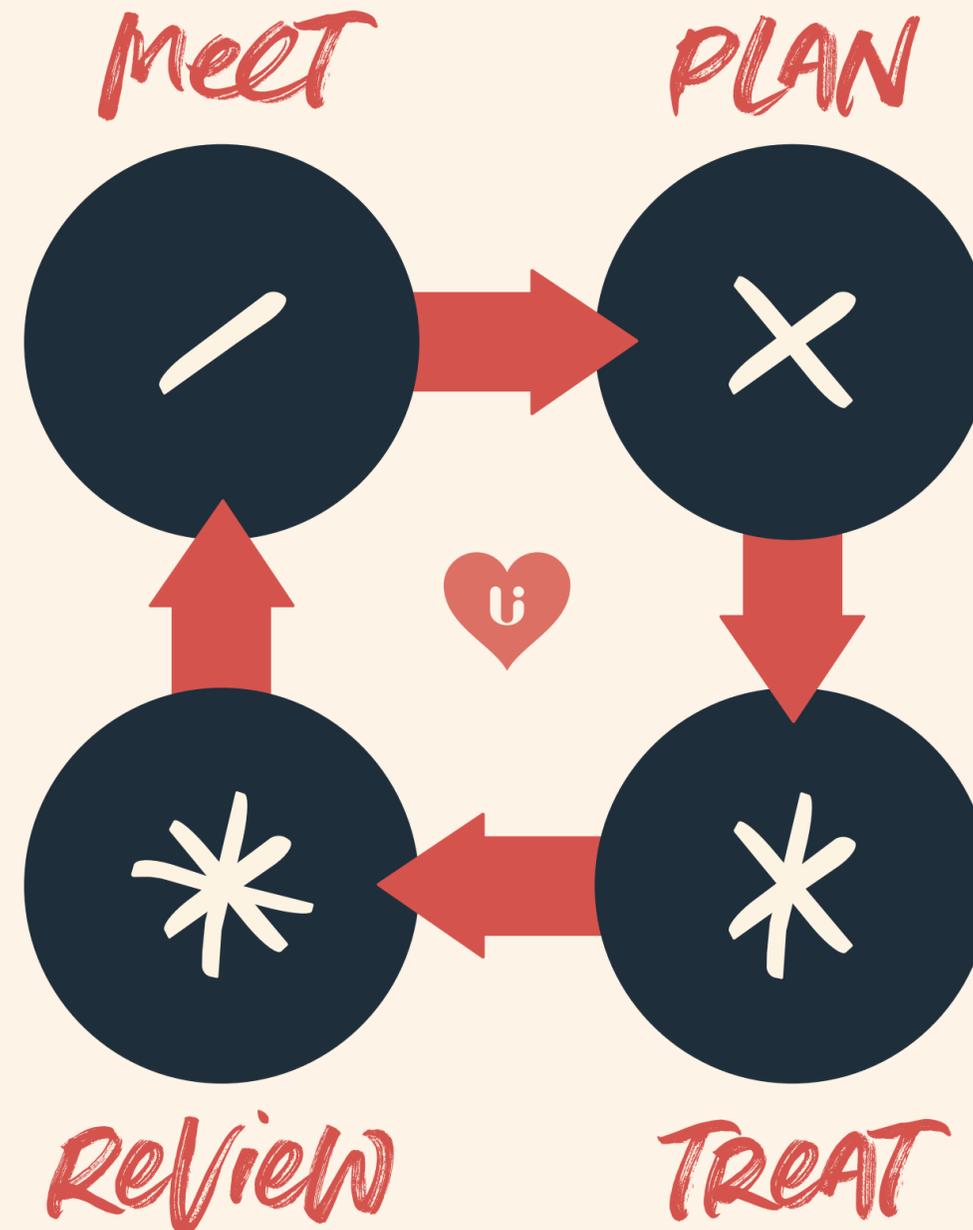

Our solutions help disrupt and slow the process.”

Our method

This is all about **listening, observing** and **understanding** our patient.

It doesn't end with treatment. We **constantly review** and support our patients with each step of their journey.

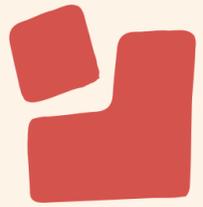

Our bespoke packages provide **a truly tailored plan** for each patient.

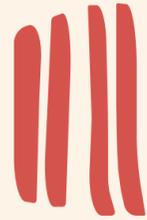

Our approach is to create **a long-term relationship**, with 100% patient happiness.

The journey

Each patient is different, so is each journey.
We deliver cutting-edge, personalised treatment plans through **four unique packages**:

RESTORE

REGENERATE

BEAUTIFY

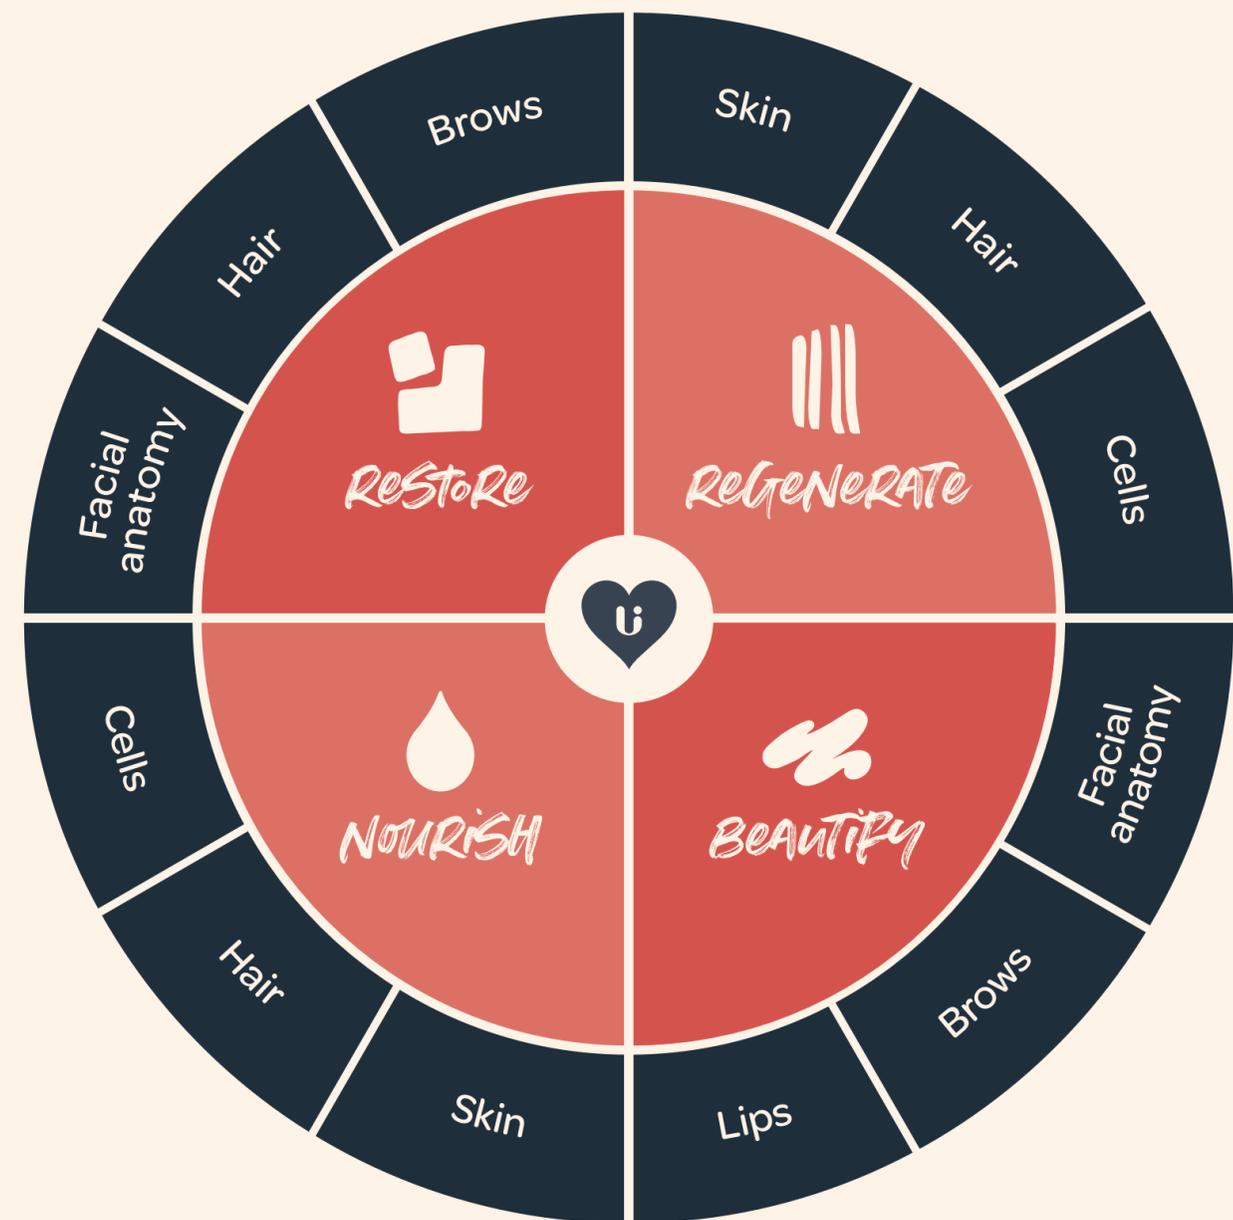

NOURISH

Our approach is simple. We create a journey for our patients through our four unique packages.

Some of our patients take a step and others choose to embark on the full journey. Your journey is determined by your unique problem.

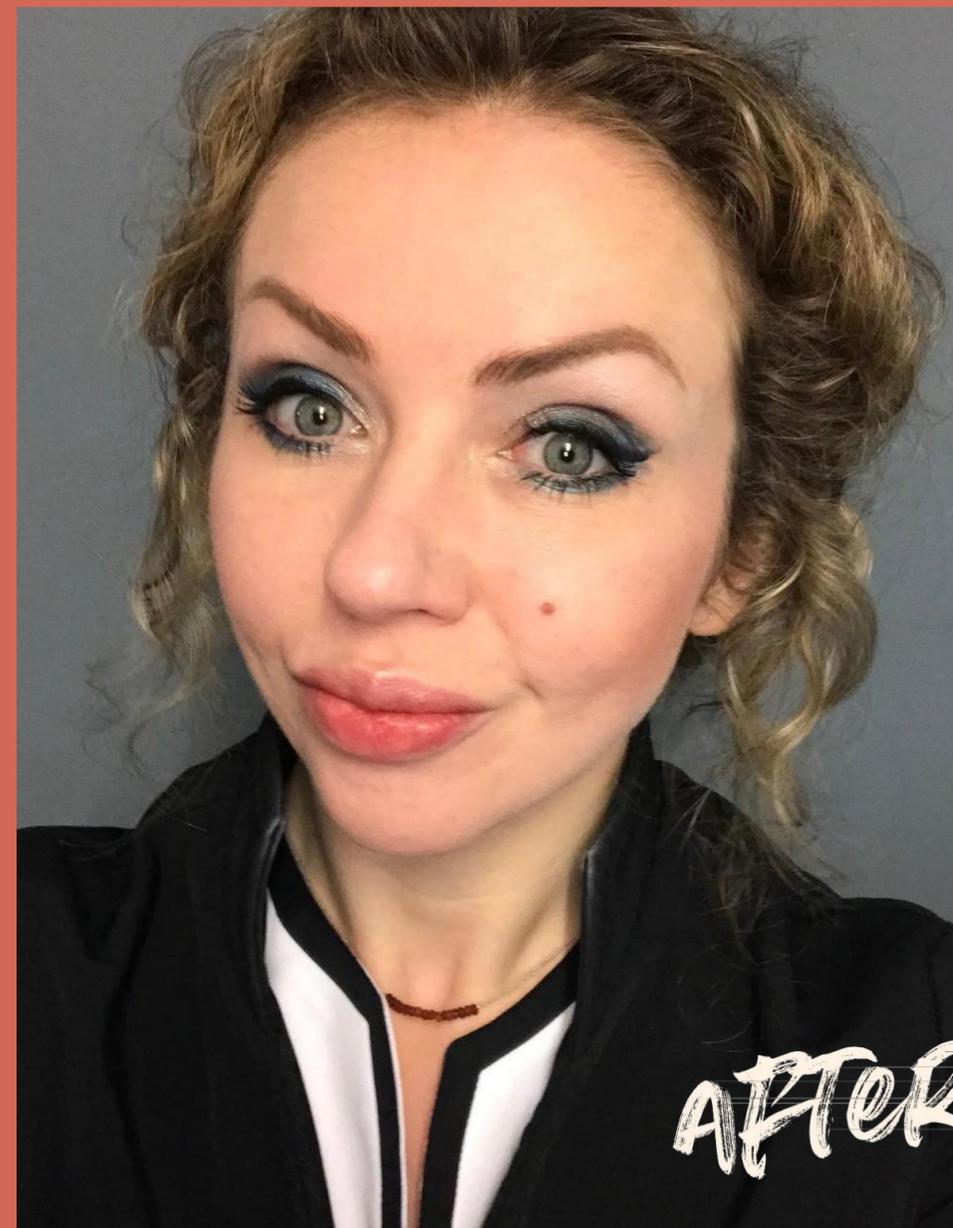

Our packages aren't just a way to make you look different. Look younger. Feel your best. Our treatments profoundly improve our patients' life and wellness, by minimising concerns and taking a preventative approach to their future.

Jess'

journey

Jess came to us with low confidence that really didn't match her warm and energetic personality. Her dark circles, dull skin and a loss of volume had left her with a permanently tired look – something most busy working mums can relate to.

RESTORE

- BOTOX™ to reduce the lines in her forehead
- Filler in her cheeks and tear trough to add some youthful volume.

REGENERATE

- Chemical peels to even out skin texture and gain a natural glow
- Skin treatment to improve elasticity and collagen levels
- Medical grade skincare treatments that get results.

BEAUTIFY

- Filler to gently enhance her lips
- Semi-permanent make-up frame and add youthful definition to her face.

NOURISH

- Facials for the 'feel-good factor'
- Hair treatment to regenerate thinning hair

NEW ROUND CONFIDENCE

Jess is feeling fresh, younger and rejuvenated – back to her best self.

TESS SAYS...

"Before, all I saw was a sad, tired face. Nothing was working until I came to Uniskin. I didn't realise I could have such a change – I feel amazing, confident, and I like what I see in the mirror."

medicine

Medical solutions have dominated for too long.

Our bodies are unique and intelligent, and we have it within us to solve our biggest physical and emotional problems. We just need the knowledge and guidance from the right people to set us on the path to living a fulfilled and restored life.

From the founder - Tania

Malan

It isn't just my business. It isn't just my job. **It's my passion.** It's a culmination of everything I've trained and worked towards over the past 30 years.

- Our **uniqueness** comes from our team of experts who can deliver results.
- Our **dedication** comes through in our training, on-going research and innovative mindset.
- And, most importantly, **our care shines through** in going above and beyond with each patient's journey, providing a personal, supportive, and trusted service, which has resulted in **over 300,000 happy patients** to date.
